FROM THE GENERAL BOARD

In this issue, look for the 1980 Country Fair financial statement. So many people never hear how the Fairs turn out, and I thought, in the interest of better communication, we would print it in the RIDDLEGRAM which is mailed to all of you. A very successful Fair it was!

At the January meeting \$30,000.00 was presented to Mr. Laughlin as one-half of this year's Annual Pledge. \$31,234.00 was spent on 4 monitoring systems - ICU and a Cash Register for Major Treat. \$500.00 was given in memory of Mr. Clarence Jordan to the RMH Memorial Fund. Also established in memory of Dot Fear, Dede Coffin and Miriam McCafferty was \$3,000 in our newly created Associated Auxiliaries Presidents Memorial Fund.

There are two changes on the Board, and I am pleased to announce that Marion Rines (Lina) is our Membership Chairman and Cornie Burckhardt (Rose Tree) is Merry Token Chairman.

SOMETHING FROM HOME FOR ST. PATRICK'S DAY, I asked the five-year-olds in my Sunday School class to bring "something green that you love". The next Sunday, they brought the usual green hats, green sweaters and green books. But one boy entered with an especially big grin. Behind him, wearing a green dress, came his four-year-old sister.

RMH ADDS NEW INSTRUMENT FOR
FASTER, ACCURATE BLOOD ANALYSES

In order to increase labor efficiency and to improve patient care, Riddle Memorial Hospital has installed an Automatic Clinical Analyzer ('aca'), a new sophisticated instrument to automatically analyze blood serum and other body fluids. This system, developed by the DuPont Company, performs rapid and accurate Chemical analyses of body fluids.

According to Mr. Donald L. Laughlin, President of RMH, "The 'aca' represents a major investment for our Hospital and gives our Laboratory the added capacity to respond to the growing need for quick and accurate diagnostic tests day and night."

The 'aca' has the basic capability of performing up to 60 diagnostic tests. Test results can be obtained from the instrument in less than eight minutes. Use of the 'aca' for routine and emergency procedures makes it a valuable asset to the Laboratory. The 'aca' provides expanded capabilities without increasing the staff, thus leading to cost containment economies.

CLARENCE L. JORDAN

Clarence L. Jordan, a devoted and long time supporter of the Associated Auxiliaries and Riddle Memorial Hospital, died on January 2, 1981, at the age of 84.

Mr. Jordan was elected to the original Board of Directors of RMH and continued to serve as a member until 1975.

Mr. Jordan had a deep and sincere admiration for the work done by the members of the Associated Auxiliaries. He had a particular interest in the Souvenir Program of the Annual Country Fair and for many years wrote the editorial content. Mr. Jordan had been Executive Vice President of N. W. Ayer & Son Advertising. His vast experience and knowledge are reflected in the written material in our Program.

Mr. Jordan is survived by his wife, Helen, a son Jerry, and three grandchildren. The members of the Associated Auxiliaries extend sincere sympathy to them in their loss.

No one knows how far he can grow-----he only knows how far he has grown.

How do you go about growing?

By wanting to.....

By working at it...

By opening your eyes, your ears, your heart, and your mind to new vistas, new voices, new information and ideas!.....

PRESIDENT'D MESSAGE

Looking over the coming events for Spring, I got to thinking about what an excellent opportunity these Auxiliary functions present for getting to know each other better. They are all great events, not to be missed, and they provide a warm atmosphere for new friendships to begin and old ones to grow. Why not come out to some of these affairs outside your Auxiliary, and get to know members of other Auxiliaries, and have an enjoyable time with us.
